

## Split Star Block for Carol Sparks, past President (2022-2024)

If you imagine the Split Star block blown apart into its nine subunits, you'll see  
one 6.5" half-square triangle unit (center),  
two 3.5" half-square triangle units (lower left & upper right),  
two 3.5" x 6.5" blue flying geese on white (left & top),  
two 3.5" x 6.5" white flying geese on blue (right & bottom),  
one 3.5" blue square (upper left), and  
one 3.5" white square (lower right).

If that's enough information for you and you have a preferred method for making HST units and flying geese, then have at it! You can skip my tutorial. Make me a 12.5" block (12" finished) and send it along. But if you want to know how I do it, read on. Be warned though: using my preferred methods will leave you with enough extra pieces that you'll have most of a second block. OK? Ready? Then let's go!

Cut: (1) 7" square of blue and (1) of white  
(1) 4" square of blue and (1) of white  
(1) 7-1/4" square of blue and (1) of white  
(4) 3-7/8" squares of blue and (4) of white  
(1) 3.5" square of blue and (1) of white
